KOHU OIL-ABSORB™

Organic Oil Spill Absorbent · Large Sea Mats for Open Water Spill Response

🌿 Natural & Biodegradable

💪 Strong & Durable

♻️ Eco Friendly

🇮🇳 Made in India

ABOUT THE PRODUCT

Nature's answer to oil spills — fast, effective, sustainable.

The KOHU Oil-Absorb™ Sea Mat is a premium, fully organic oil spill absorbent engineered from natural coir fibre and jute mesh. Designed for rapid deployment on open water, it floats naturally, absorbs hydrocarbons efficiently, and biodegrades without leaving harmful residues. From calm harbour ports to rougher offshore conditions, KOHU has a mat for every scenario.

WHY CHOOSE KOHU

Built for the Ocean. Better for the Planet.

100% Organic Material

Coir fibre and jute — no synthetic fibres, no microplastics left behind.

Floats & Absorbs

Naturally buoyant on seawater; selectively absorbs oil while repelling water.

Easy Deployment

Rope lifting loops allow fast deployment and retrieval by any crew size.

Scalable Response

Three sizes cover everything from nearshore ports to large offshore spills.
